Students gain practical work experience related to their majors through experiential learning programs offered by our industry partners in conjunction with the Edson College.

Edson College partners with many health care organizations in Arizona – including the **Mayo Clinic, the VA Clinic and Phoenix Children’s Hospital** – to provide hands-on learning experiences for clinical nursing students.

An annual opportunity for students to **present their research projects** proposing innovative solutions to health issues, providing them experience pitching their research to peers.

Two fully-equipped and state-of-the-art simulation spaces, ready to enable more than 90,000 hours of student experiential learning: The Grace Center and the Health Futures Center.

Edson College study abroad exposes students to real world health challenges and opportunities that face communities beyond the United States.

The first-ever accelerator for ASU students, faculty and the community to launch initiatives that focus entirely on health and health care solutions.
