Clinical Research Management

A fully-online, interprofessional master’s degree program

College of Nursing and Health Innovation
Arizona State University
The Master of Science degree in Clinical Research Management from the College of Nursing and Health Innovation at Arizona State University prepares graduates to lead complex, global, clinical research operations in a variety of settings. The modern clinical research industry needs managers who can address the challenges.

Graduates of this MS CRM are highly sought throughout the industry, providing research oversight and conducting research trials in key roles as project managers, research specialists and site directors. Thanks to the high quality of education and the involvement of real-world practitioners, a wide variety of employers are seeking CRM graduates, including:

- Medical drug and device developers
- Government regulatory agencies
- Health care institutions
- Academic medical institutions
- National and international contract research organizations
that face clinical research operations. Through this fully-online program, graduates develop an interprofessional understanding of vital components for industry management, including fiscal, ethical, and regulatory aspects of clinical drug, biological and medical device trials.

Academic Focus
In the CRM program, students advance their skill set and knowledge in preparation to lead complex, global, clinical research operations in a variety of settings. Our graduate program in clinical research management offers you a multidisciplinary approach to clinical research, emphasizing:

- Ethical and regulatory requirements
- Leadership in the global clinical trial industry
- Project and data management
- Clinical research operations
- Responsible conduct of research
- Fiscal and budgetary responsibility
- Data management

Graduate Degree for Working Professionals
Designed to be flexible and conducive to active adult learners, the 33-credit MS CRM program offers all core courses online in 7.5 week sessions. Students typically complete the program in 18-24 months.
Admissions

Applications are accepted at any time for enrollment five times per year.
